Products KS Profiel

KS Profiel stands for slit coil and cold-formed profiles made from varying qualities and types of steel. Besides profiles and coil we also supply *KS Innovatieplaat* (dovetail-profiled steel sheet) and building systems, and we are advisors in the field of construction possibilities and industrial design.

In addition to our extensive stock of standard sections, our Specials range offers a wide variety of options in profile forms and quality of materials.

Our aim is to think along with you to provide innovative, solution-focused products. We pay particular attention to:

- practical design
 - o profile shape
 - o laser welding
 - o hole cutting
 - o notches and openings
 - o conversions
- efficient use of materials in construction
 - o form
 - o choice of material
- industrial design
 - o detailing
- integration with other materials

Let us work with you to produce a good concept!
