The Transitoweg branch in Moerdijk is one of our subdivisions.

This is the site of our newest slitter for pre-painted and thin-gauge steel strip. Finishing work on steel strip is carried out here, and also the profiles are made here for the KS Innovatieplaat profiled steel sheets.

How to find us:

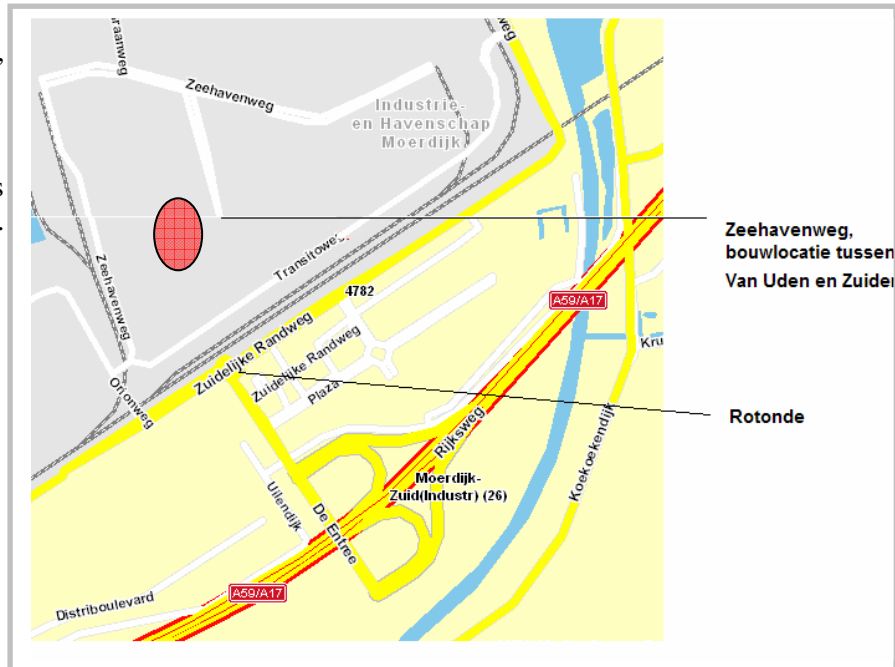

Please note: at present the Transitoweg Site can only be reached via the rear entrance on the Zeehavenweg.

Approaching from direction Rotterdam/ Breda via the A16:

Take the A59/A17 direction Roosendaal/ Zierikzee. Turn off at exit 26 'Industrieterrein Moerdijk'. At the end of the exit-road turn right, and at the roundabout turn left.

Take the road on the right, this is the Orionweg. Immediately after, take the right turn onto the Zeehavenweg. Follow this road as it bears to the left. Passing various industrial units the road makes a sharp turn to the right, this is still the Zeehavenweg.

Take the first right turn after the sharp bend, this will lead you to our site on the Transitoweg.

Approaching from direction Roosendaal via the A59:

Take exit 26 'Industrieterrein Moerdijk'. Turn left at the roundabout. Take the road on the right, this is the Orionweg. Immediately after, take the right turn onto the Zeehavenweg. Follow this road as it bears to the left. Passing various industrial units the road makes a sharp turn to the right, this is still the Zeehavenweg. Take the first right turn after the sharp bend, this will lead you to our new site on the Transitoweg.
